Software & Programming: Java • Python • C# • HTML/CSS • Microsoft Word • Excel • PowerPoint • Google Workspace • SharePoint

Professional: Written Communication • Attention to Detail • Problem Solving • Team Collaboration • Time Management • Project Coordination

PROFESSIONAL EXPERIENCE

IT Intern — National Wages and Productivity Commission (NWPC–DOLE) | April 2026 – Present

- Supported IT and administrative operations through data gathering, validation, documentation, and organization of departmental information.
- Developed and maintained Looker Studio dashboards to visualize regional wage adjustments and productivity indicators for reporting and management use.
- Supported the development, testing, and implementation of an employee attendance monitoring dashboard.
- Contributed to SharePoint site design and refinement to improve layout, user experience, and internal content accessibility.
- Conducted research on wage trends, inflation, labor productivity, and MSME-related developments to support departmental reporting.
- Prepared, organized, and disseminated daily operational information and departmental materials.
- Performed data validation and technical documentation activities to maintain record integrity.

Administrative / Office Support — NWPC–DOLE | Internship Responsibilities

- Assisted with administrative functions across office divisions, including HR-related tasks, records and document processing, and general office coordination.
- Served as secretary to an attorney, assisting with document preparation, organization, scheduling/coordination, and day-to-day legal office administrative support.
- Performed cashiering duties in the Administrative Division when assigned, supporting transactions and maintaining accurate records.
- Provided support to the Procurement Division, assisting with procurement-related documentation, organization, and administrative tasks.
- Adapted to different office functions and responsibilities while maintaining accuracy, professionalism, confidentiality, and timely completion of assigned work.

Project Leader — Pet Track Capstone Project | Academic Project

- Led a development team in designing and implementing a GPS-based pet tracking system.
- Managed project planning, documentation, technical testing, coordination, and final stakeholder presentations.
- Applied structured problem-solving, teamwork, technical communication, and deadline management throughout the project lifecycle.

EDUCATION

Bachelor of Science in Computer Science — STI College Pasay-EDSA | Graduated July 10, 2026
